

TRUST & ESTATE ADMINISTRATION

Fiduciary Calendar

Stay in control of your clients' needs with the Fiduciary Calendar of ONESOURCE Trust & Estate Administration. It provides a detailed calendar/checklist composed of several specific ticklers, as well as a general calendar designed for the management of trust and estate deadlines. There is no need to input each deadline. The system automatically calculates when the 1040, 1041, 706, 709, state inventory and other items are due and allows for the inclusion of any miscellaneous dates as a reminder for particular clients.

All this information is available at your fingertips with specific reports: Master Checklist, Death Tax Checklist, Income Tax Checklist, Expected Income Checklist, List of Bonds and Notes Coming Due and the Checklist/Calendar. As with all ONESOURCE Trust & Estate Administration products, the Fiduciary Calendar is fully integrated with the entire suite or can be used as a standalone product.

FIDUCIARY CALENDAR

- Automatically calculates due dates
- Provides specific reports
- Fully integrated with the OneSource Trust & Estate Administration suite
